

LawCity.Com Welcomes Leading NFT and emerging technology attorney Charles Slamowitz to its Advisory Board

Acclaimed Web3 attorney joins LawCity.Com's advisory board to advise on strategy and new initiatives.

CHERRY HILL, N.J. ([PRWEB](#)) July 12, 2022 -- LawCity.Com, the first legal district, legal directory, and legal search engine in the metaverse, is pleased to announce that Charles Slamowitz, a New York City-based attorney who is a leading authority in Web3 law, has joined its advisory board. As a member of LawCity.Com's advisory board, Mr. Slamowitz will provide strategic advice to LawCity.Com regarding new technologies and legal developments in the Web3 space, as well as regarding new initiatives it will pursue.

“In Web3 and the metaverse, there are boundless possibilities awaiting legal pioneers, such as the tenants of LawCity.Com, who see applications today for technologies like NFTs and smart contracts in the legal industry and who appreciate the potential the technologies hold for the future when we expect documents like medical records and property deeds to be on the blockchain, and documents like sales agreements and wills to be smart contracts,” said [Richard Grungo, Jr.](#), founder of LawCity.Com. “We couldn't imagine a better advisor to help guide LawCity.Com as it grows and evolves than Charles, the preeminent lawyer in the NFT space.”

Mr. Slamowitz counsels an array of NFT projects, from renowned artists and celebrities to nascent startups and filmmakers. He has advised on over two dozen NFT projects, including one from Snoop Dogg. As a young entrepreneur, he successfully sold two businesses within the tech space and realized there was a scarcity of lawyers who truly understood the emerging tech landscape in a way that could help founders and entrepreneurs confidently navigate this new frontier. With his experience as a motivator, Charles attended and graduated from Emory University School of Law, a top-tier law school, and has since launched his own Web3 practice.

“With each passing day, it is increasingly clear how Web3 technologies, including the metaverse, will revolutionize the way individuals engage with and protect their property rights and civil rights, and how much the practice of law will evolve in the next decade or so,” said Slamowitz. “I am excited to serve on LawCity.Com's advisory board and help guide it forward because the LawCity.Com team shares my vision for how Web3 technologies can make the lives of legal consumers better, and how important it is for legal consumers and law firms to be educated, as soon as possible, about Web3 technologies and the impact they'll have on their lives.”
